Gobble! Gobble!

Make a turkey-themed sensory craft with ACP! You can use this activity to introduce the upcoming holiday, experiment with new textures, or just be creative with your kiddo!

Materials Needed:

- Brown construction paper
- Coffee filter
- Markers

Instructions:

1. Cut two circles from the brown construction paper. One should be smaller than the other.
2. Flatten one coffee filter.
3. Color the coffee filter with your markers. Use as many colors as you'd like!
4. Fold the coffee filter in half three times. It will look like a small pizza slice when finished!
5. Take the point of the coffee filter and dip the tip in about 1 inch of water until the colors blend.
6. Unfold the filter and let it dry.
7. Glue the large circle to the bottom of the dried coffee filter and the small circle to the middle, so it looks like the body and head of a turkey.
8. Color a face on your new turkey pal!

Please remember that adult supervision is necessary for a safe and enjoyable experience.
